LOANED EQUIPMENT AGREEMENT

Customer Name: _____ Contact Phone: _____
Job Address: _____ Contact name: _____
City, State, Zip: _____ Job Name: _____

New Distributing Company is providing _____ the following equipment for use in storing, handling and dispensing oil and/or fuel products solely from New Distributing subject to the terms and conditions set forth below:

Equipment Information		Terms of Agreement		
Quantity	Description	Date Delivered	Date Returned	Rental

Delivery Instructions: _____

Customer Agrees to Pay: Delivery Fee: \$ _____ Pick Up Fee: \$ _____

Customer Agrees to purchase from Distributor at least: _____ gal per month, or pay: \$ _____ per month rental.

Customer agrees to receive above described equipment loaned to Customer by New Distributing Co. and agrees upon request to return it to New Distributing Co. at Customer's sole cost in same condition as received, ordinary wear and tear are expected. The equipment shall remain the property of New Distributing and New Distributing may at any time, without notice, enter upon the premises where Equipment shall be located and retake possession of the Equipment without legal process or liability. The Customer is acknowledged to be the equipment operator and agrees to hold New Distributing harmless from damage or claims from the operation of the Equipment. The Customer shall keep the Equipment free and clear of all liens, encumbrances, pledges and security interests. New Distributing must be notified prior to tank relocation. The Customer is responsible for providing power to the equipment where necessary and is responsible for any Local, State and/or Federal requirements pertaining to Equipment.

This Equipment agreement and Addendum contains the entire agreement between New Distributing Co. and Customer related to Equipment.

I have the authority to enter this agreement and am requesting that New Distributing Co. furnish this Equipment.

Addendum to Equipment Supply Agreement

Water or fuel left in tank and/or containment pan: \$50 per hour pump-off fee (includes trip time)
Minimum 3 hours plus disposal cost

Trash/debris left in containment pan: \$100 service fee plus full cost of hazardous materials disposal.
(used filters, oil & grease containers, rags, etc.)

Note: The tank delivery & pick-up fee may be charged for each attempted pick-up and if any of the above conditions prevent the driver from loading the equipment.

Loaned Dispensing Equipment Policy:

New Distributing will loan a pump/meter/hose/nozzle in good working condition at no charge and will guarantee it for 30 days. **Replacement beyond 30 days will be billed to customer at the replacement cost of new equipment.**

New Distributing will maintain loaned equipment in good working order. **Customer is responsible for supplying filters and any item that is damaged due to neglect, lost or stolen.**

Important tips for using loaned equipment safely and economically:

30 minutes on – 30 minutes off: 12 volt and 110 volt pumps have a 30 minute duty cycle. They will over heat if run longer than 30 minutes and a small module will have to be replaced in order for them to run correctly again. After extended use let it cool for as long as you ran it.

Replace fuel filters often: All loaned pumps come with a fuel filter base and clean filter. If fuel flow seems restricted the first thing to do is change the filter. We deliver filters when making fuel deliveries at the price of a new filter.

Avoid Extra Charges

Leave the tank as empty as possible. Diesel weighs over 7lbs per gallon. We cannot haul a tank that has fuel in it.

Keep rainwater to a minimum. The containment pans are designed to prevent a major fuel leak. Unfortunately they collect rainwater as well. Having the pan empty of water, trash and used filters at the time of pick up is the customer's responsibility and will save you money.

Please contact New Distributing if you have any questions.
